

E-commerce website

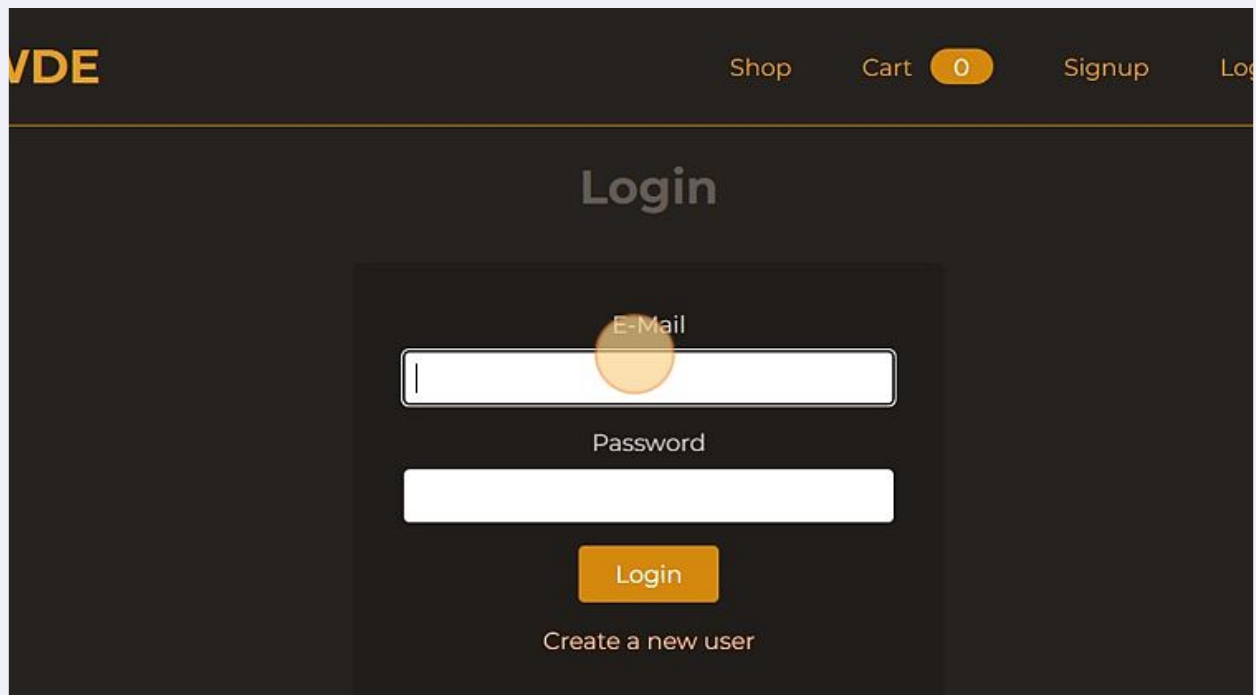

E-commerce website helps to purchase products. Has admin and customer side which has functionalities like manage-order, manage-product, cart, users, etc

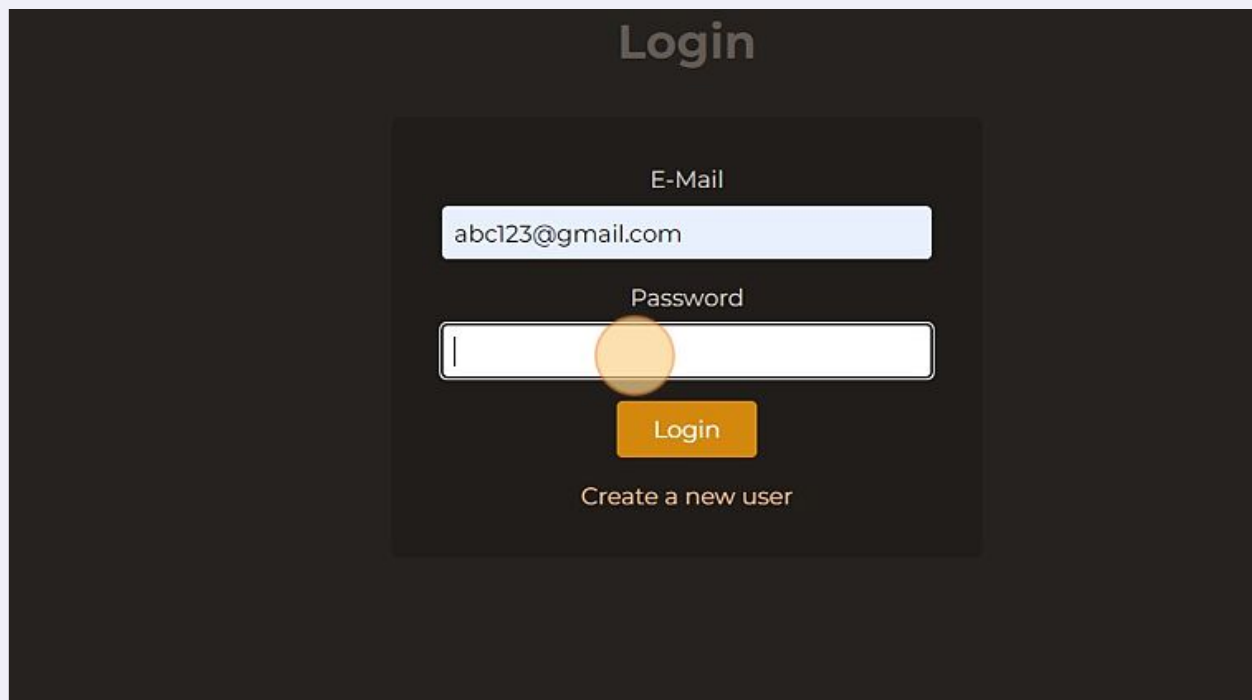

1 Navigate to <localhost:3000/login>

2 Admin

3 Click the "E-Mail" field.

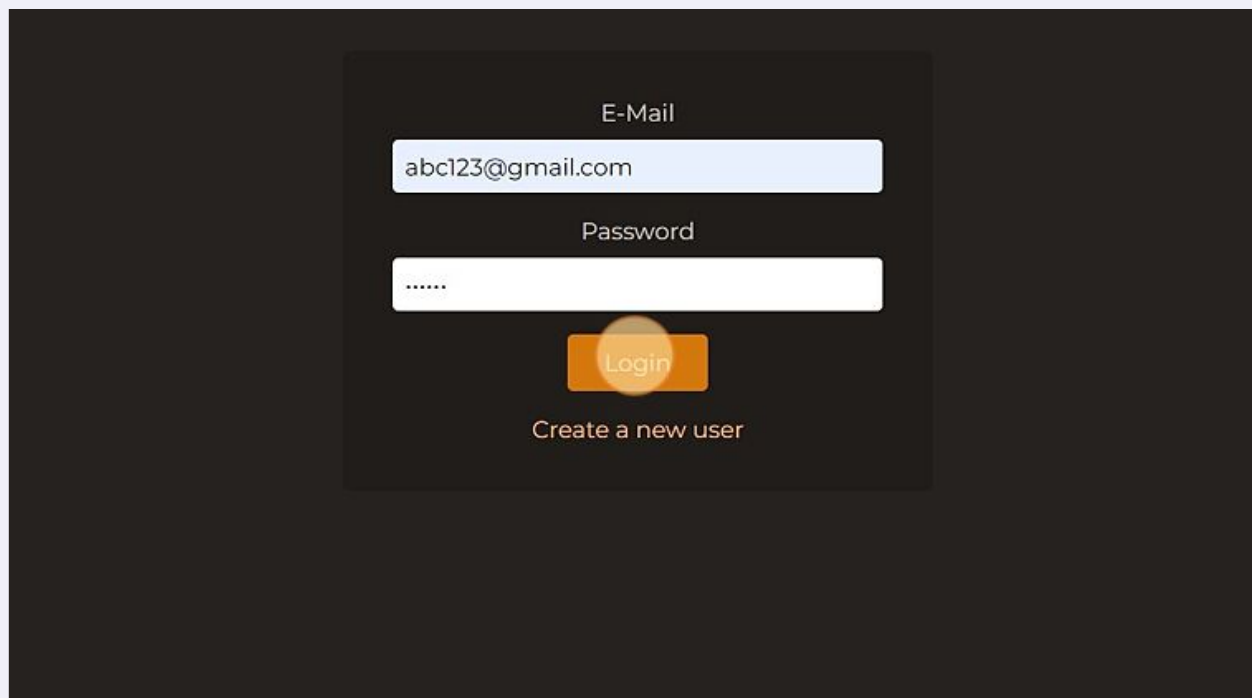

- 4 Click the "Password" field. (abc123)

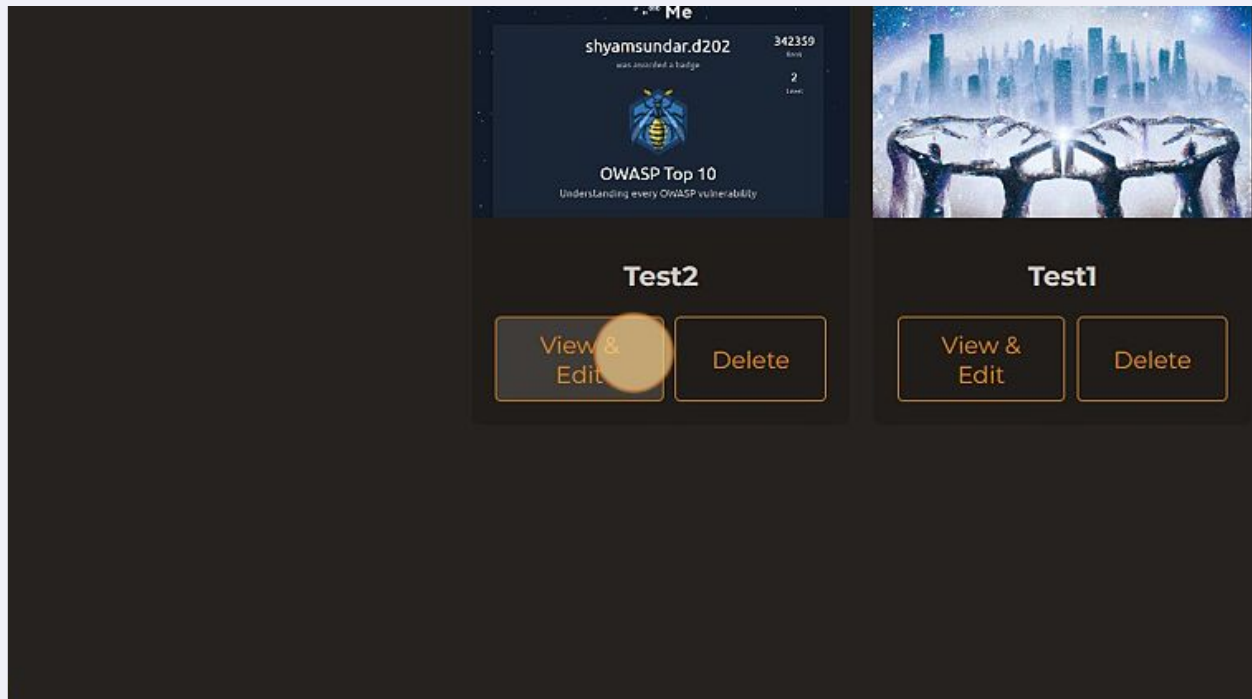

A screenshot of a login interface on a dark background. At the top, the word "Login" is displayed in a light gray font. Below it, there is a light gray rectangular box containing the login fields. The first field is labeled "E-Mail" and contains the text "abc123@gmail.com". The second field is labeled "Password" and is currently empty. An orange circle is positioned over the password field, indicating it is the target for the next action. Below the password field is an orange button with the text "Login" in white. At the bottom of the light gray box, there is a link that says "Create a new user" in a small, light gray font.

- 5 Click "Login"

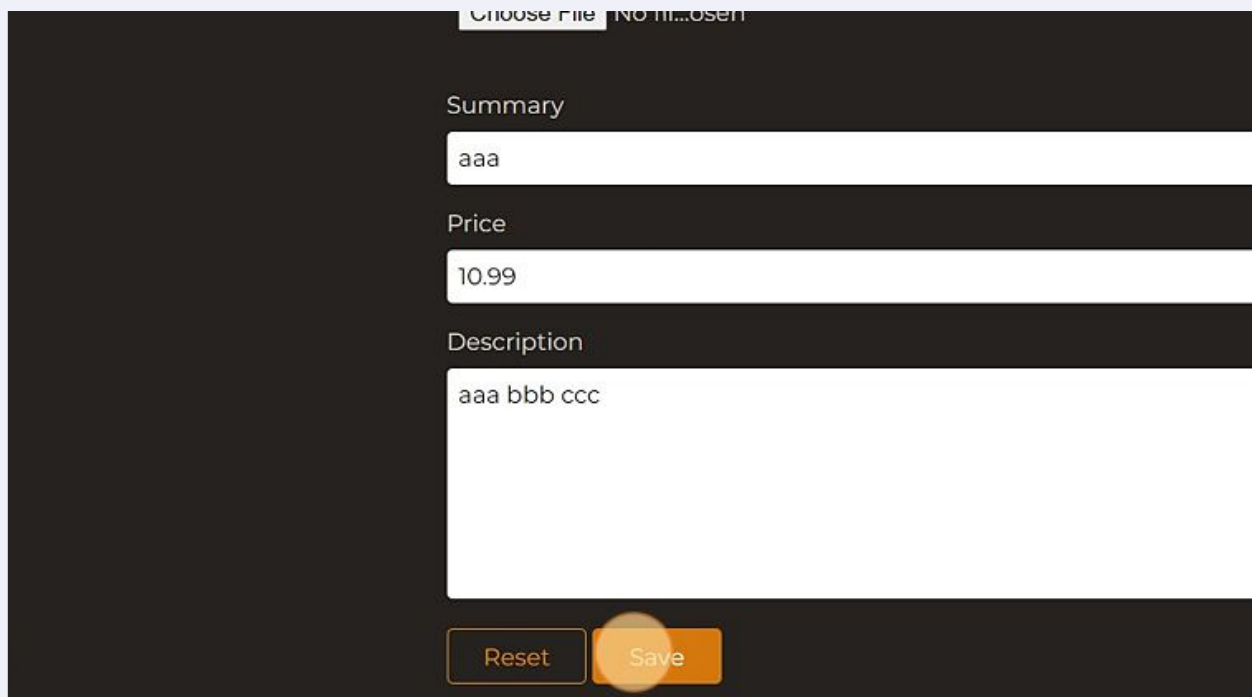

A screenshot of the same login interface as in the previous step. The "E-Mail" field still contains "abc123@gmail.com". The "Password" field now contains six dots, indicating that the password has been entered. The orange circle has moved from the password field to the orange "Login" button, which is now the target for the next action. The "Create a new user" link remains at the bottom of the form box.

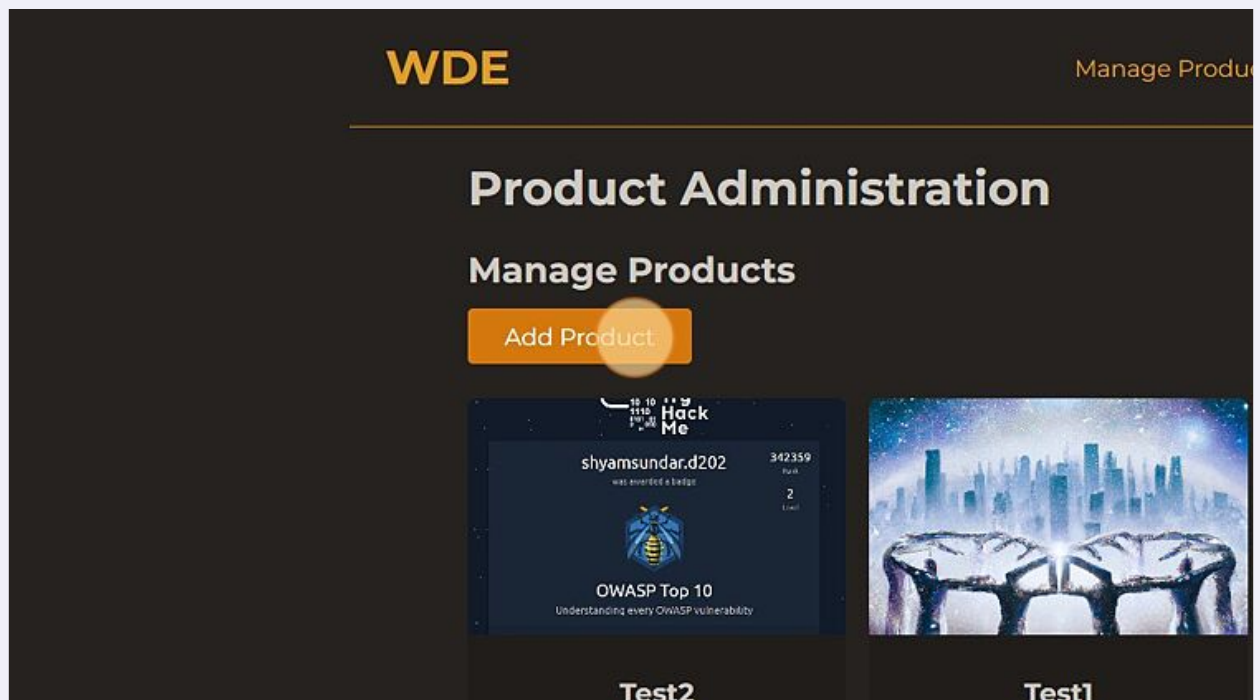

6 Click "View & Edit"

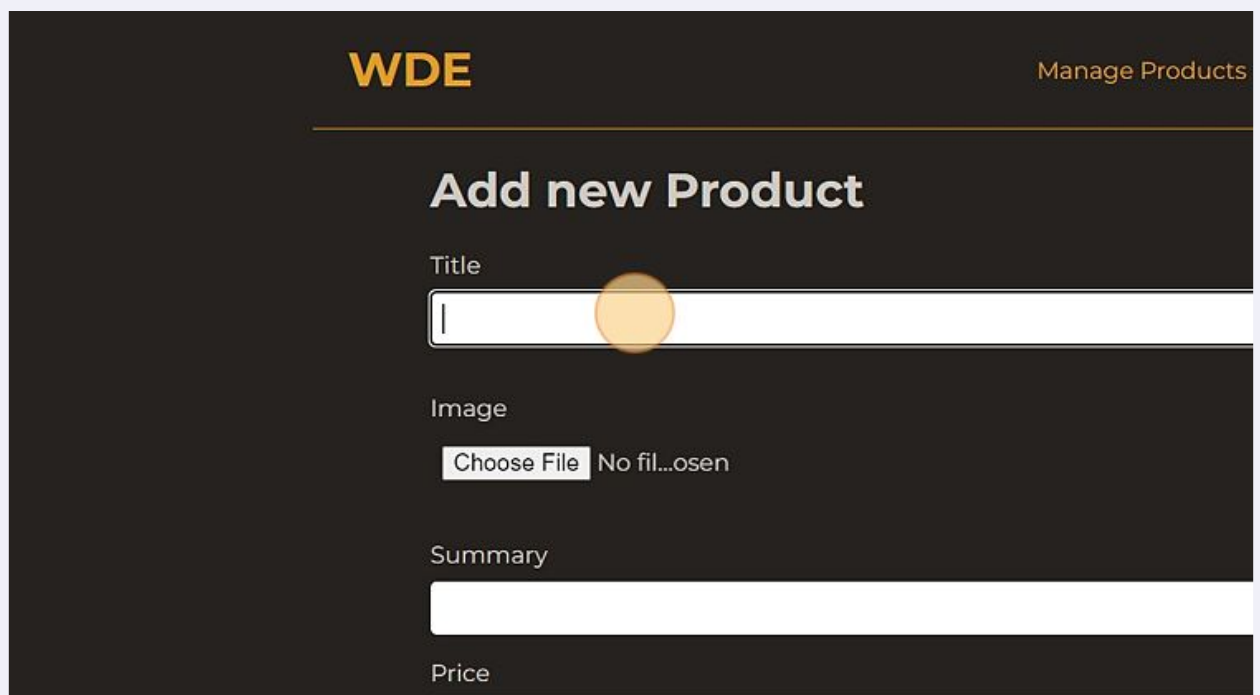

7 Click "Save"

8 Click "Add Product"

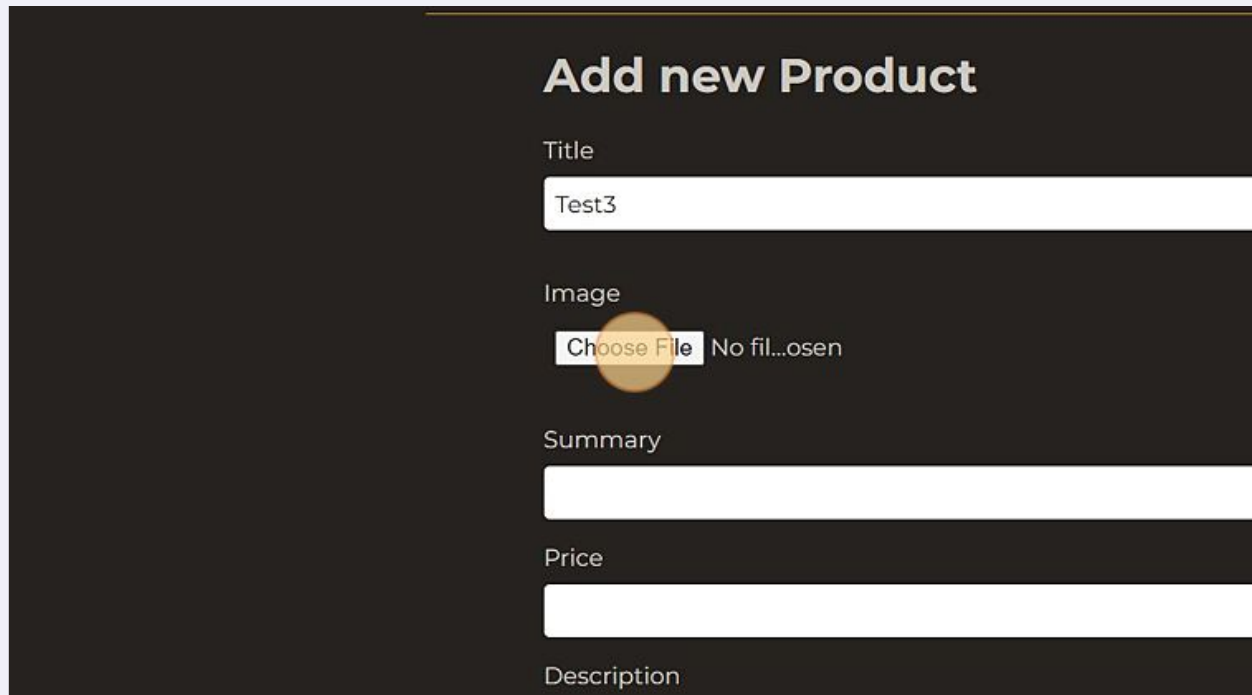

9 Click the "Title" field.

10 Type "test3 **HOME RIGHT BACKSPACE** T"

11 Click the "Image" field.

The screenshot shows a dark-themed form titled "Add new Product". The form contains several input fields: "Title" (containing "Test3"), "Image" (with a "Choose File" button and "No file chosen" text), "Summary", "Price", and "Description". A yellow circular callout with a black dot is positioned over the "Choose File" button in the "Image" field.

This is an electronically generated Receipt. No Signature Required.

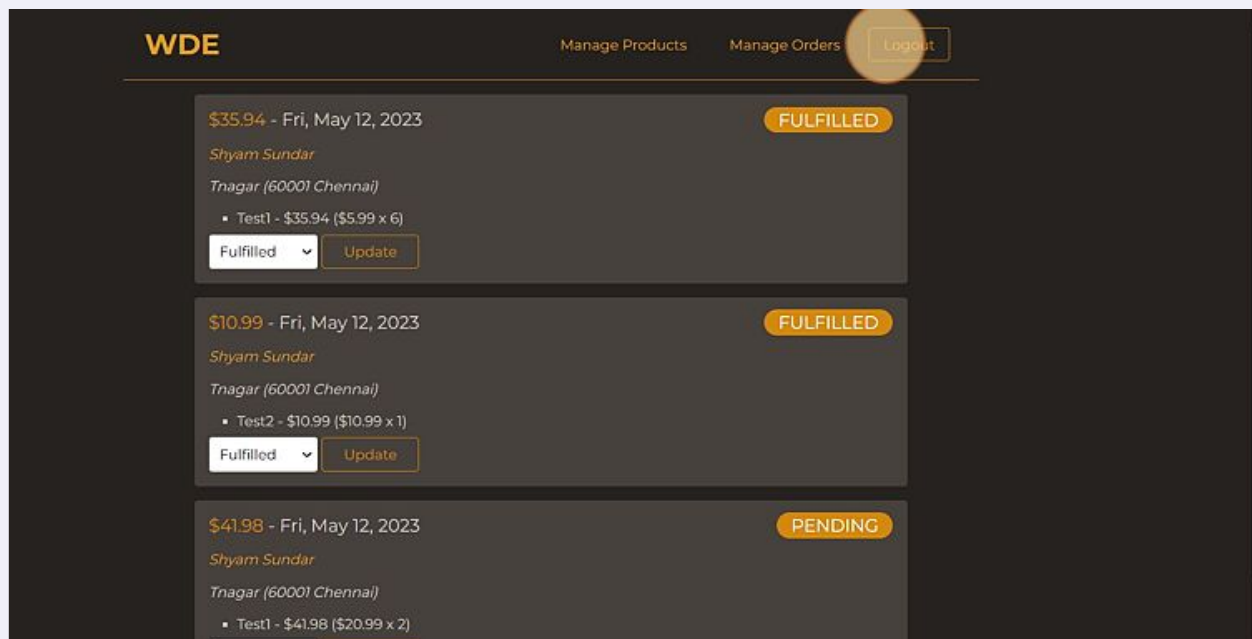

21 Click this dropdown.

22 Click "Update"

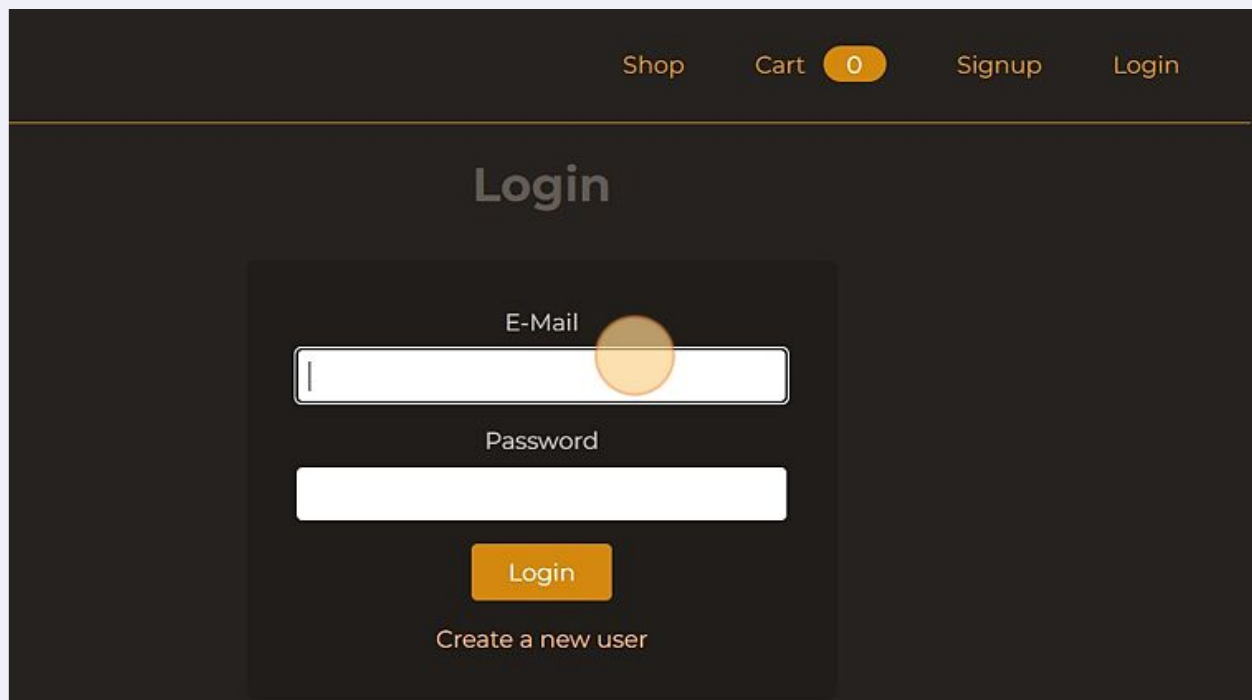

23 Click "Logout"

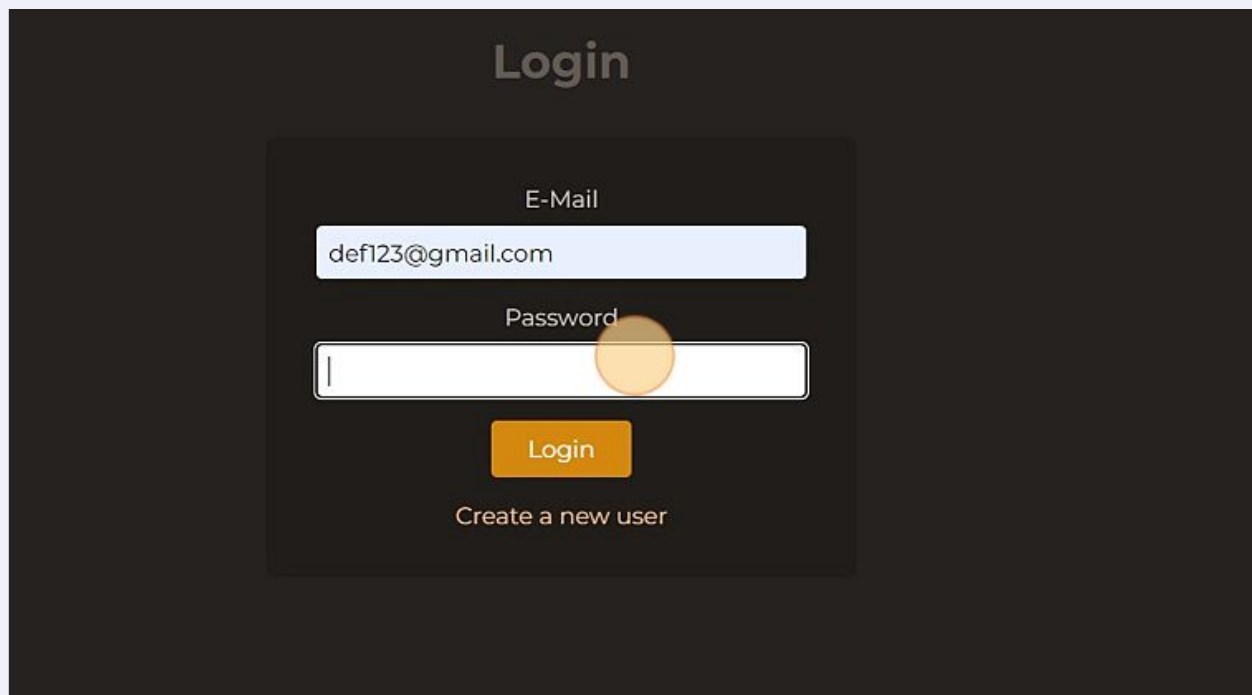

24 Customer

- 25 Click the "E-Mail" field.

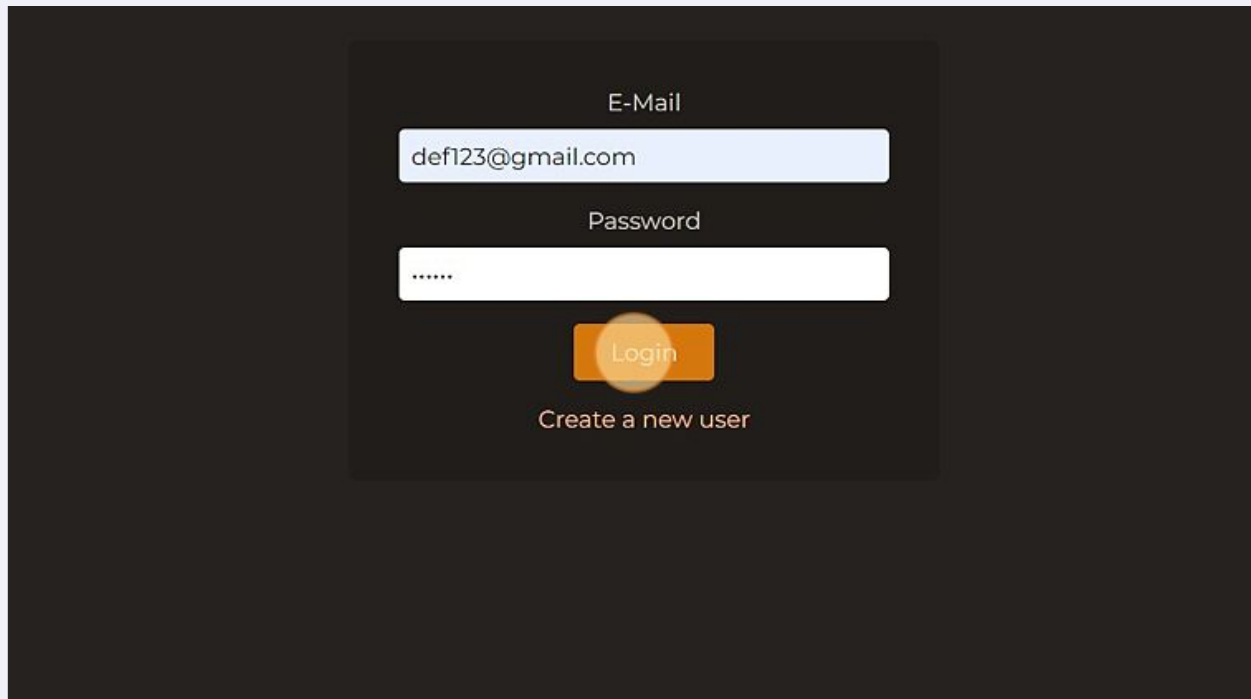

The screenshot shows a dark-themed login page. At the top, there is a navigation bar with links for "Shop", "Cart" (with a yellow circle containing the number "0"), "Signup", and "Login". Below this, the word "Login" is centered in a large, light gray font. The main form is a dark gray rectangle containing two white input fields. The first field is labeled "E-Mail" and has a yellow circular cursor icon positioned at its right end. The second field is labeled "Password". Below the password field is a yellow "Login" button, and further down is a link that says "Create a new user".

- 26 Click the "Password" field.

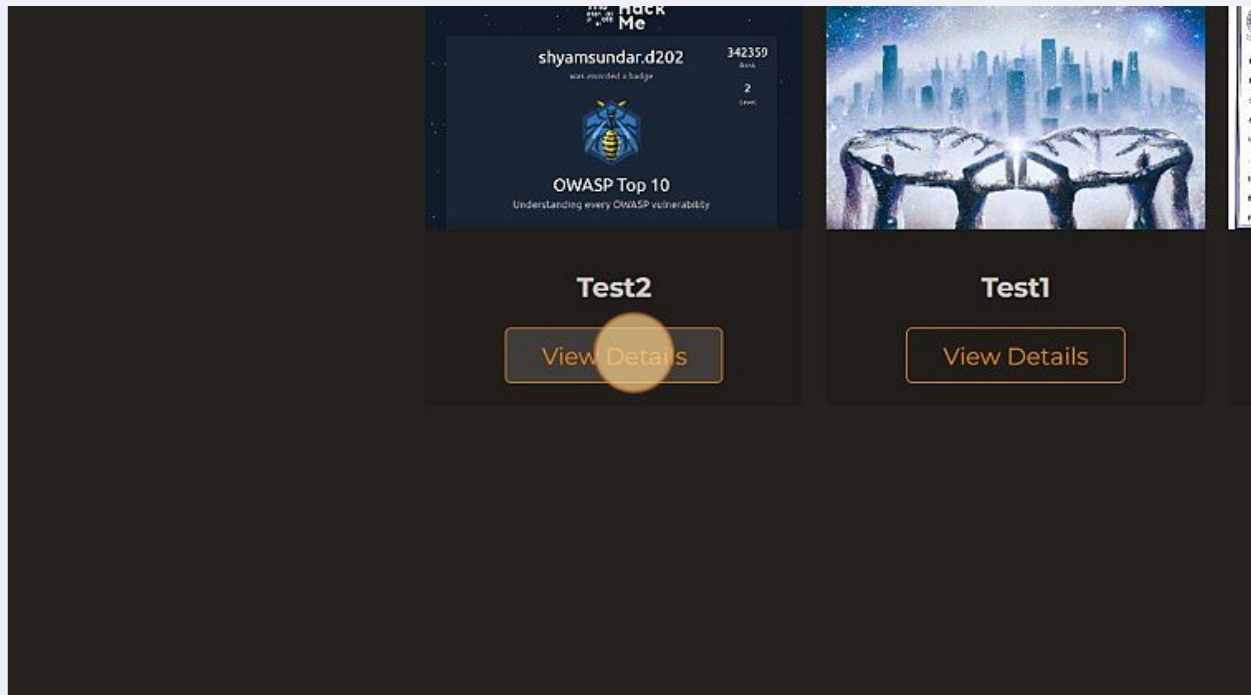

This screenshot shows the same login page as the previous one, but with the "E-Mail" field now filled with the text "def123@gmail.com". The "Password" field now has a yellow circular cursor icon at its right end. The "Login" button and the "Create a new user" link remain visible below the password field.

27 Click "Login"(def123)

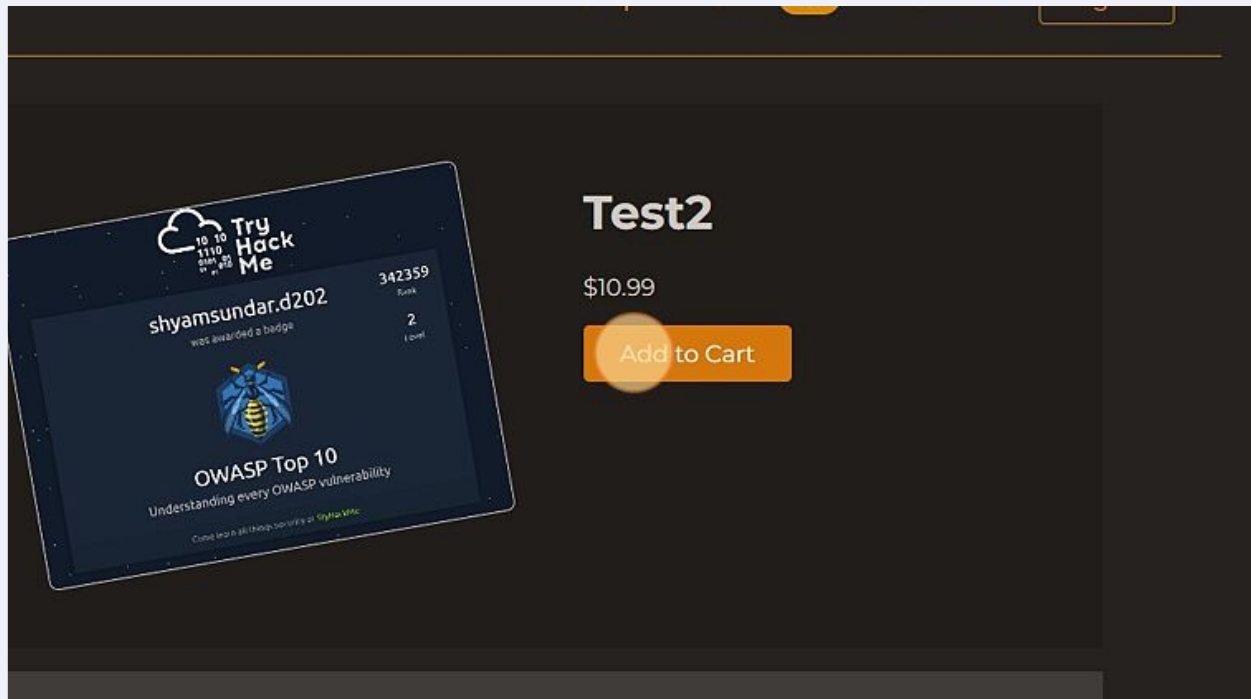

A login form on a dark background. It features two input fields: "E-Mail" with the value "def123@gmail.com" and "Password" with masked characters "*****". Below the fields is an orange "Login" button, which is highlighted with a circular callout. Underneath the button is a link that says "Create a new user".

28 Click "View Details"

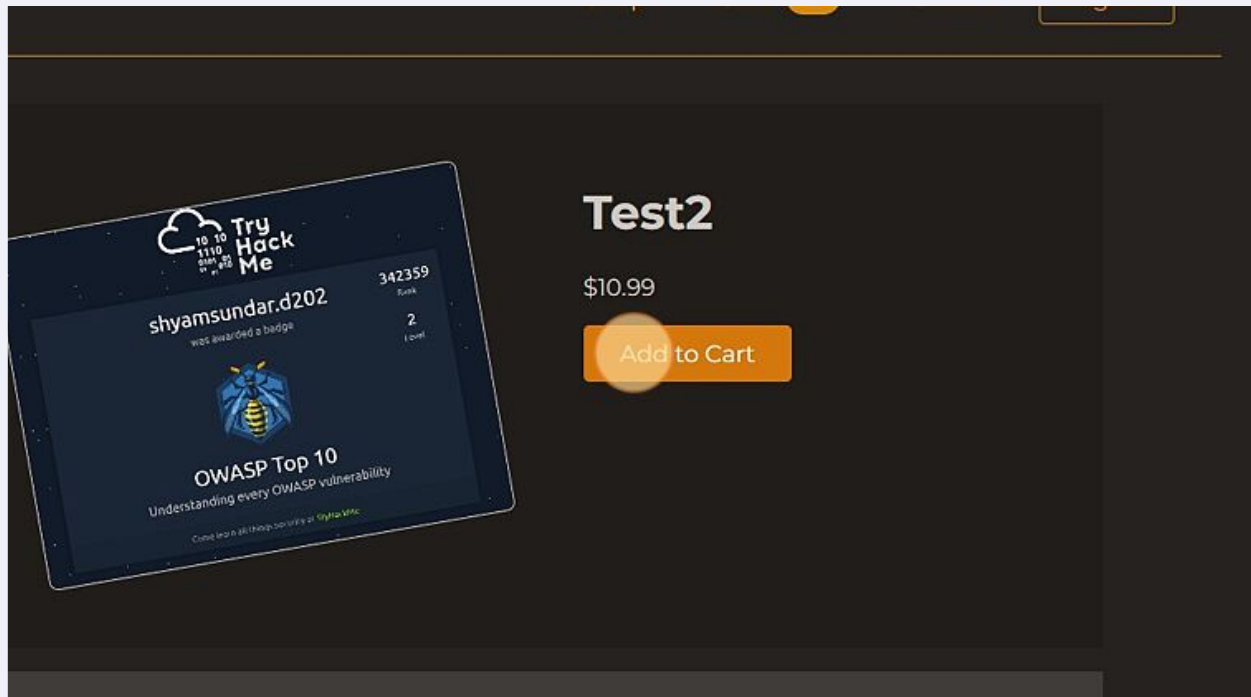

A user profile and test results section. The profile card for "shyamsundar.d202" shows a score of 342350, 2 levels, and an "OWASP Top 10" badge. Below the profile are two test cards, "Test2" and "Test1", each with a "View Details" button. The "Test2" button is highlighted with a circular callout. The background features a city skyline and a DNA helix.
